

NCS Colour Display 600 Cascade

A stylish and simple wall hung display solution for the stripe-coated colour chips with the NCS 600 Cascade colours. This chip rack is easy to set up and arrange the NCS Cascade 600 Colour Chips in three different ways: choose to organize the colours by nuance, hue or inspiration sorting (by families). Easily add separate NCS Colour Display Modules for additional solid colour samples to extend and customize your offer or combine with additional features, such as inspirational images and screens. A basic colour display creating a functional and inspiring spot for your customers!
