

NCS Colour Workshop

Would you like to manage the complexity of colour change and colour combinations? During four colourful days in Stockholm we will make a deep dive into the different colour design principles to learn how to master colours. No matter if you are an architect, designer, or work within the coating industry you need to manage this complexity. During the workshop you will interactively work with colour and be challenged in different cases together with international participants.

- Challenge yourself in your colour design by going deeper into the complexity regarding the factors that influence the perception of colours.
- Widen your colour knowledge by getting an international perspective.
- Get inspired by new perspectives, designs, and trends.

WORKSHOP SET UP

This is a four (4) day workshop at NCS headquarters in Stockholm. Our introduction course NCS Colour Communication is included in the price so that you can learn the NCS language and how to use NCS during our colourful week. The workshop contains different colour workshops, and we continue analysing all the aspects of the design process during the week, such as light, material and target groups etc. During this week you will work on a project that you later present to NCS Colour and your fellow colour participants and get feedback on.

FOR WHOM

To be able to take in the knowledge this week, we expect you to have an interest about colour and ready to deep dive and therefore prior knowledge about colour is beneficial but not mandatory.

WHY PARTICIPATE IN THE WORKSHOP

- Master the colour design principles to create interesting colour design projects.
- Manage the challenge of choosing colour in relation to material, design, and target group.
- Get new inspiration from an international participant.

PRACTICAL DETAILS

The workshop is held once a year during five (5) days in Stockholm.

- Date: 19 june – 22 june
- Time: 09:00 am – 16:00 pm every day
- Location: Kungsholmen, Stockholm.
- Language: English
- Lunch included all days
- Certificate after completed workshop

CONTENT

- NCS Colour Communication (online prior to workshop)
- Colour perception exercises
- Colour Design Principles
- Exterior and Interior colour design
- Field trips
- Create and present your own project

TEACHERS

Karl Johan Bertilsson is the Creative Director for NCS Colour. Since he joined NCS Colour in 1997, he has developed numerous creative projects.

His diverse project portfolio ranges from creative design for interior and exterior architecture to developing unique colour concepts and collections for industries worldwide.

Ida Kvarby is the Concept Specialist at NCS and is a key developer in our NCS Colour Academy. She has an in-depth knowledge about colour, and she has worked with lighting design prior to NCS Colour which makes her skill sets a perfect match for our colour education development.

External lecturer will also be included during the workshop.

RECOMMENDATIONS

We highly recommend that you stay in Stockholm during Friday 23 of June since we are celebrating midsummer her. It is a fantastic celebration and the the sun never completely sets which means that you will experience the blue hour which is fantastic. In Stockholm you can join the midsummer celebration at [Skansen](#).

ACCOMODATION

We also recommend three different hotels in the area close to our headquarters:

Marriott Hotel

Courtyard Stockholm Kungsholmen invites you to experience 4-star comfort and award-winning convenience. [Marriott Kungsholmen](#)

Hotel Amaranten

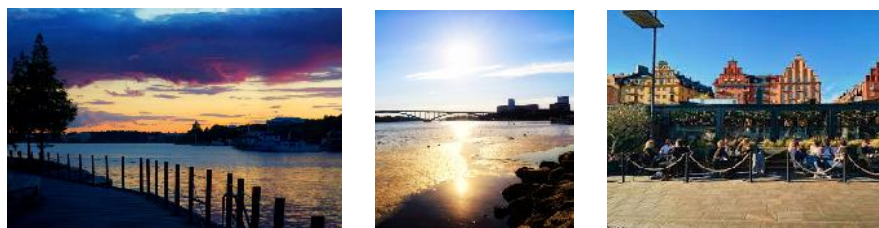

The Clarion Hotel Amaranten is a unique boutique hotel with flamboyant 60s-inspired design! [Amaranten hotel](#)

Hotel Connect City

Modern design with a quiet atmosphere next to NCS Headquarters. [Connect City Hotel](#)

KUNGSHOLMEN

NCS Headquarters is located at Kungsholmen which is one of the city islands in Stockholm. You can walk to the city center in 10-20 minutes depending on where at Kungsholmen you are. You have plenty of restaurants and cafés to choose between and shopping in the centre of Kungsholmen called Fridhemsplan. You also have nature next door with greenery and water where you can enjoy exercising or perhaps a nice refreshing dip in the ocean.

WHY AN NCS COURSE?

The NCS System is the only colour system on the market 100% based on visual perception of colour. All our courses include the smart application of NCS in colour design, from planning to execution. The courses are developed by NCS Colour Academy colour experts in collaboration with professional designers, representatives from the industry as well as our network of lecturers, trend forecasters and colour experts from across the world.
